

# Portal - Seitengestell

The gantry crane system is therefore amplified and offers new fields of application

The lateral stand comes into use when the standard stand can't be positioned directly behind the load

The portal has two vertical supports and therefore can be placed on top of the load  
**capacity 1.500 kg**

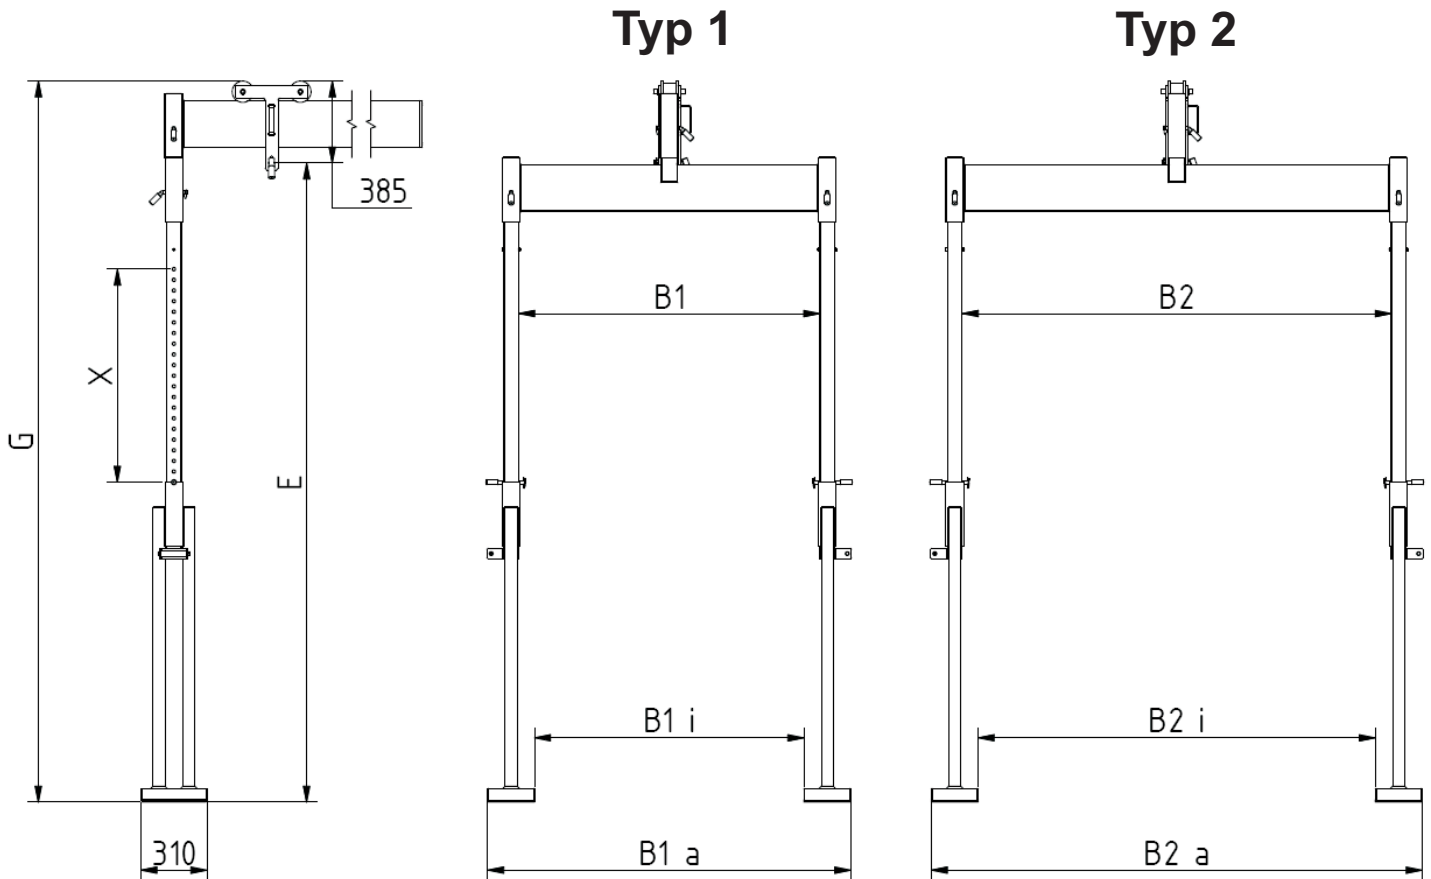

**New**  
3 models  
Mini  
Standard  
Maxi

The load can be transported through the portal

**The technical data you will find on the next page**

# Portal - lateral stand
